

bulb replacement

First step :

The trim gets 4 clips which maintain the back case of the mirror.
Take off one with a large rounded knife or a flat screwdriver.
PLEASE BE CAUTIOUS .

2nd step

Take off the second clip

3rd step

Open the back case

4th step

Dismount and remount the new bulb (please turn it slightly)

Last step

Push the back case in order to let the 4 clips maintain the back case
